

5-day Training Program on "Digital Transformation for Senior Leaders" at ISB Mohali

National e-Governance Division (NeGD), under the Ministry of Electronics and Information Technology (MeitY), in collaboration with the Indian School of Business (ISB), Mohali, inaugurated a five-day training program on "Digital Transformation for Senior Leaders". The program, scheduled from 2nd to 6th December 2024, is a significant step under the broader Digital India initiative to equip senior government officials with the skills and knowledge required to drive digital transformation and enhance governance efficiency across India.

The program was inaugurated by Shri Dinesh Didel, Director, NeGD and was participated by senior officials from Central Line Ministries and State/UT departments from New Delhi, Kerala, Tamil Nadu, Telangana, and West Bengal. Through this training programme, participants will gain practical insights to address contemporary challenges in governance, utilising digital tools to improve service delivery and operational efficiency within their respective departments.

Program Objectives:

- Equip leaders to drive digital transformation
- Foster citizen-centric governance initiatives
- Enhance efficiency and transparency in service delivery

Focus Areas: The program is an integral part of the Capacity-Building scheme under the Digital India Program. It provides targeted training on:

- Digital Governance: Strengthening frameworks to deliver high-quality public services
- Cybersecurity: Addressing challenges and securing digital ecosystems
- Digital Leadership: Empowering officials to lead transformational projects

This initiative underscores the Government of India's commitment to fostering a robust digital ecosystem capable of addressing citizens' needs effectively and efficiently. By empowering leaders with the knowledge and skills to navigate the digital age, the program aligns with the vision of a digitally empowered nation.

Participants will also benefit from interactive sessions with industry practitioners, hands-on workshops, and case studies, ensuring they are well-equipped to spearhead digital innovation in their respective domains.
