The envisioned roles and responsibilities of NeGD are as follows:

1. Providing strategic direction in terms of framing policies and implementation strategy for the Digital India Programme in different domains of e-Governance
2. Proactive support to Central and State Governments for Mission Mode Projects and other e-Governance projects
3. Acting as a facilitator and catalyst for implementation of Digital India Program by various Ministries and State Governments
4. Providing Technical Assistance – Offering expert support to Central Ministries and State Line Departments in their e-Governance initiatives, either independently or in collaboration with professional consultants.
5. Conducting Technical Appraisals – Evaluating e-Governance projects to assess key aspects such as technology architecture, framework standards, security policies, service delivery mechanisms, and the integration of shared infrastructure to ensure scalability and efficiency.
6. Developing Standardized Documentation – Creating generic and model templates for Expressions of Interest (EoI), Requests for Proposals (RFPs), Standard Contracts, Public-Private Partnership (PPP) Models, and other essential documents to guide various project stages and requirements across States.
7. Enhancing Citizen Engagement – Ensuring effective communication with stakeholders through both offline channels and social media platforms to foster transparency, public participation, and feedback-driven improvements in government services.
8. Assessing Impact and Readiness – Conducting impact assessments and e-Readiness evaluations of e-Governance projects across all States and Union Territories (UTs) to measure effectiveness and identify areas for improvement.
9. Capacity Building and Skill Development – Organizing training programs, workshops, and knowledge-sharing sessions for government officials and stakeholders to enhance their technical and managerial capabilities in e-Governance.
10. Promoting Interoperability and Data Sharing – Facilitating seamless integration among various government systems by advocating for common standards, open APIs, and data-sharing frameworks to improve service delivery.
11. Ensuring Cybersecurity and Data Protection – Establishing robust security policies, data protection measures, and compliance frameworks to safeguard citizen data and ensure secure digital transactions.
12. Driving Innovation Through Emerging Technologies – Exploring and leveraging AI, blockchain, IoT, and cloud computing to enhance the efficiency, transparency, and security of e-Governance initiatives.
13. Encouraging Public-Private Partnerships (PPPs) – Collaborating with private sector organizations, startups, and academia to drive innovation, improve service delivery, and ensure the sustainability of digital governance initiatives.
14. Monitoring and Evaluation – Implementing real-time monitoring mechanisms, performance metrics, and feedback loops to track project progress, address challenges, and ensure continuous improvement.
15. Supporting State-Specific Customization – Assisting States and UTs in tailoring digital-Governance solutions to address their unique administrative, cultural, and technological requirements.
16. Encouraging Paperless Governance – Promoting electronic document management systems, digital signatures, and workflow automation to enhance efficiency and reduce administrative overhead.

17. Aligning with Global Best Practices – Benchmarking India's Digital-Governance initiatives against global standards and best practices to ensure competitiveness and continuous evolution.
18. Recruitment, deployment and HR management of specialized resources in the State e-Governance Mission Teams in all States and UTs
19. Development of competency frameworks, training guidelines, case studies, etc.
20. Developing Online and Web based Training for IGOT in Mission Karmayogi.
21. Knowledge management and sharing through workshops, development of case studies, sharing best practises and creation of knowledge repositories, etc
