Ministry of Electronics, and Information Technology, MeitY, has established India AI Independent Business Division (India AI) under Digital India Corporation for implementing the India AI mission. The India AI Mission aims to create a robust ecosystem that accelerates AI innovation through strategic initiatives and collaborations spanning both public and private domains. By democratizing access to computing resources, enhancing data quality, nurturing homegrown AI expertise, attracting top talent, fostering industry partnerships, supporting startup ventures, promoting socially impactful AI projects, and emphasizing ethical practices, the mission seeks to foster responsible and inclusive growth within India's AI landscape. Government of India has recently approved the IndiaAI Mission to democratize access to AI innovation pillars and ensure global competitiveness of India's AI ecosystem catalyzing AI innovation through strategic programs and partnerships across the public and private sectors. By democratizing computing access, improving data quality, developing indigenous AI capabilities, attracting top AI talent, enabling industry collaboration, providing startup risk capital, ensuring socially impactful AI projects and bolstering ethical AI, it will drive responsible, inclusive growth of India's AI ecosystem.

India AI is currently inviting applications for the below position purely on Contract/ Consolidated basis.

S.No	Name of the Post	No. of Positions
1.	General Manager – Compute	1

The place of posting shall be in New Delhi but transferable to project locations of IndiaAI as per existing policy of IndiaAI.

Eligible candidates may apply ONLINE: <https://ora.digitalindiacorporation.in/>

Last date for submission of application: 20.11.2025

About India AI

The IndiaAI Mission aims to build a comprehensive ecosystem that fosters AI innovation by democratizing computing access, enhancing data quality, developing indigenous AI capabilities, attracting top AI talent, enabling industry collaboration, providing startup risk capital, ensuring socially impactful AI projects, and promoting ethical AI. This mission drives responsible and inclusive growth of India's AI ecosystem through seven pillars.

About DIC

The Digital India Corporation (formerly Media Lab Asia) has been set up by the Ministry of Electronics and Information Technology (MeitY), Government of India, to innovate, develop and deploy ICT and other emerging technologies for the benefit of the common man. Digital India Corporation plays the role of a leader in promoting e-Governance by taking forward the projects and activities of the Digital India Programme, to facilitate its stakeholders to realise its goals. It also provides strategic support to Ministries & Departments, both at the Central and State level for carrying forward the mission of the Digital India Programme by way of Capacity Building for e-Governance projects, promoting best practices, encouraging Public-Private Partnerships (PPP), nurturing innovation and technology in various domains. Digital India Corporation has several Independent Business Divisions under it and these include NeGD, MyGov, Bhashini, ISM, IndiaAI and MSH.

General Manager – Compute

Role/Position :	General Manager - Compute
Project :	IndiaAI
Reporting to :	COO, IndiaAI
Location :	New Delhi

A. Roles and Responsibilities

- Drive the implementation of IndiaAI Compute Capacity pillar of the Mission. He will be responsible for developing project plans that outline the scope, objectives, resources, budget, and timeline. He will work with stakeholders to identify project requirements and establish a roadmap for successful execution of the project.
- Lead the conceptualization, design, architecture, and implementation of India's largest and scalable AI ecosystem based on GPU computing, aiming to build a highly scalable AI compute cloud infrastructure on the Indian Sovereign Cloud.
- Finalize the PPP model for provisioning of the AI Compute Infrastructure.
- Drafting the RFP for implementation of the project by defining the Scope of the Private Partner for building the AI Compute ecosystem as also provisioning of AI Compute to stakeholders from existing service providers.
- Bid process management, Contract Management and enforcement of SLAs.
- A key responsibility of the Project Lead will be to identify potential risks and develop strategies to mitigate them. He would also need to address any issues or obstacles that

arise during the project, making adjustments to the plan as needed to keep the project on track.

- Project Lead, Compute will be required to coordinate the project team, ensuring team members understand their roles and responsibilities. He will also facilitate communication between team members and stakeholders to maintain alignment and resolve any issues that may arise during the project.
- Oversee the development of a high-performance AI scalable computing ecosystem, involving GPUs, libraries, SDKs, GPU/accelerated computing memory, storage, and processing units.
- Collaborate with industry partners, research institutions, and academic organizations to benchmark and optimize ML/DL applications on various OEM GPUs.
- Stay abreast of the latest advancements in AI computing, software ecosystems, and related technologies, ensuring that India remains at the forefront of innovation.

B. Education

- Bachelor's Degree in Computer Science / Electronics Engineering / or a related field from a recognized university/institution.

C. Desirable Skills & Experience

- Total of 15+ years of experience of which at least 10 years should be working with AI technologies, GPU computing, and large-scale parallel computing systems with a proven track record of successful implementations.
- In-depth knowledge of GPU computing architectures, High-Speed Networks, AI frameworks, libraries, software and storage ecosystems.
- A strong research background, with publications in reputed international journals and conferences.
- Proven leadership skills, with the ability to manage and coordinate large, cross-functional teams.
- Excellent communication, collaboration and managerial skills, with the ability to liaise effectively with stakeholders, industry partners, and government agencies.
- A deep understanding of the national and global AI landscape, emerging trends, and the ability to translate strategic objectives into actionable plans.
- Knowledge of Government procurement systems and competency in RFP drafting and Bid process management.

General Conditions applicable to all applicants covered under this advertisement:

- Those candidates, who are already in regular or contractual employment under Central / State Government, Public Sector Undertakings or Autonomous Bodies, are expected to apply through proper channel or attach a 'No Objection Certificate' from the employer concerned with the application OR produce No Objection Certificate at the time of interview.
- IndiaAI reserves the right to fill all or some or none of the positions advertised without assigning any reason as it deems fit.
- The positions are purely temporary in nature for the project of India AI and the appointees shall not derive any right or claim for permanent appointment at India AI or on any vacancies existing or that shall be advertised for recruitment by IndiaAI in future.
- Screening of applications will be based on qualifications and relevant experience. IndiaAI reserves the right to fix higher threshold of qualifications and experience for screening and limiting the number of candidates for interview.
- Only shortlisted candidates shall be invited for interviews. India AI reserves the right to not to select any of the candidates without assigning any reason thereof.
- IndiaAI reserves the right to terminate the appointments of all positions with a notice of one month or without any notice by paying one month's salary in lieu of the notice period.
- The maximum age shall be as on the last date of receipt of the applications.
