The National e-Governance Division (NeGD) is an independent business division under the Digital India Corporation, Ministry of Electronics and Information Technology. NeGD has been playing a pivotal role in supporting MeitY in Programme Management and implementation of e-Governance projects and initiatives undertaken by various Ministries/ Departments, both at the Central and State levels.

NeGD has been spearheading several innovative initiatives under the aegis of the Digital India Programme. Those have been developed keeping the vision areas of Digital India at the core- providing digital infrastructure as a core utility to every citizen, governance and services on demand and in particular, digital empowerment of the citizens of our country; some of these initiatives include DigiLocker, UMANG, OpenForge Platform, API Setu, National Academic Depository, Learning Management System.

It has myriad roles and responsibilities from supporting Central Line Ministries and State Government Departments on e-Governance projects, reviewing State Action Plans, offering support in technology management, strategy formulation & implementation of Emerging Technologies viz. AI, Blockchain, GIS etc., to facilitating digital diplomacy with focus on Indian startups and products.

NeGD has been a leader in implementation and execution of a gamut of pilot/ infrastructure/ technical/ special projects and support components to framing core policies, project appraisals, R&D, and guiding /conducting assessments, undertaking activities for building capacities of both Government officials and other stakeholders, and creating mass awareness about schemes and services under the Digital India Programme.

NeGD is currently inviting applications for the following profiles under UMANG project on contractual basis for a period of one year. The details are given below:

S.No.	Name of the Post	No. of Positions
1	Android Developers	2
2	Full Stack Developer	1
3	Tester (QA)	1
4	Web Developer	1

The details can be downloaded from the official website of NeGD, DIC and MeitY viz. www.negd.gov.in, www.dic.gov.in & www.meity.gov.in.

Eligible candidates may apply ONLINE: <https://ora.digitalindiacorporation.in/>

Last date for submission of application: 25.01.2026

About National e-Governance Division (NeGD)

The National e-Governance Division has been set up by the Ministry of Electronics & Information Technology as an Independent Business Division under the Digital India Corporation {erstwhile Media Lab Asia}. Since 2009, NeGD has been playing a pivotal role in supporting MeitY in Programme Management and implementation of the e-Governance Projects; providing technical and advisory support to Ministries/ Departments, both at Central and State levels along with other Government organizations. NeGD's major operational areas include programme management, project development, technology management, capacity building, awareness and communications-related activities under the flagship Digital India Programme. NeGD has developed and is managing several National Public Digital Platforms such as DigiLocker, UMANG, Rapid Assessment System, OpenForge, API Setu, Poshan Tracker, Academic Bank of Credits, National Academic Depositories, National AI Portal, MyScheme, India Stack Global, Meri Pehchaan, etc.

The roles and responsibilities of NeGD are as follows:

1. Providing strategic direction in terms of framing policies and implementation strategy for the Digital India Programme in different domains of e-Governance
2. Proactive support to Central and State Governments for Mission Mode Projects and other e-Governance projects
3. Acting as a facilitator and catalyst for the implementation of the Digital India Program by various Ministries and State Governments
4. Providing technical assistance to Central Ministries/ State Line Departments in their e-Governance projects either directly or in collaboration with professional consultants
5. Undertaking technical appraisal of e-Governance projects for examining issues like overall technology, architecture, framework standards, security policy, service delivery mechanism, sharing of common infrastructure, etc
6. Developing generic / model Expression of Interest, Request for Proposal, Standard Contracts, PPP Models and other related documents for various stages and requirements of projects for use by the States
7. Ensuring effective citizen engagement and communication with all stakeholders using offline and Social Media channels
8. Impact assessment of e-governance projects of all States / UTs
9. Recruitment, deployment and HR management of specialised resources in the State e-Governance Mission Teams in all States and UTs
10. Enhancing governance through knowledge and capacity building

More details can be seen at <https://negd.gov.in/>.

About Digital India Corporation (DIC)

The Digital India Corporation (formerly Media Lab Asia) has been set up by the Ministry of Electronics and Information Technology (MeitY), Government of India, to innovate, develop and deploy ICT and other emerging technologies for the benefit of the common man. Digital India Corporation plays the role of a leader in promoting e-Governance by taking forward the projects and activities of the Digital India Programme, to facilitate its stakeholders to realise its goals. It also provides strategic support to Ministries & Departments, both at the Central and State level for carrying forward the mission of the Digital India Programme by way of Capacity Building for e-Governance projects, promoting best practices, encouraging Public-Private Partnerships (PPP), nurturing innovation and technology in various domains.

Digital India Corporation has several Independent Business Divisions under it and these include NeGD, MyGov, Bhashini, ISM, IndiaAI and MSH.

Digital India Corporation entails following responsibilities:

1. To provide leadership and support to the Government of India through MeitY; to steer and anchor the Digital India Programme along with related policy and implementation initiatives.
2. To support MeitY about policy and implementation-related issues concerning various ongoing programmes & schemes in the ICT domain as well as new initiatives undertaken as part of the Digital India Programme.
3. To support Ministries/Departments, both at Centre and States, as well as other stakeholders in crafting e-Governance strategies, to further promote Accountability, Efficiency, Efficacy and Transparency.
4. To source talent and resources both from the market as well as within Government in the ICT domain to Ministries/ Departments on a chargeable basis under Central & State Government; a talent pool of technically skilled manpower for hardware, software, networks, cyber security and laws, standards, quality and testing, etc
5. To promote innovation and evolve models for the empowerment of citizens and also to promote participatory governance and citizen engagement across the government through various platforms including social media.
6. Each IBD under DIC has specific roles and responsibilities and operates independently for its operations under the umbrella company of DIC.

More details can be seen at <https://dic.gov.in/>

About UMANG Project

The Unified Mobile Application for New-age Governance (UMANG) is a flagship initiative under the Digital India Programme, developed and managed by the National e-Governance Division (NeGD). UMANG is a unified portal aggregating major citizen-centric services of central and state governments and local, autonomous, & statutory bodies through mobile apps (Android & iOS) and the web. It is a Digital India initiative intending to improve ease of living by putting power in the hands of citizens to avail major government services anytime, anywhere, with just a few clicks on a single mobile app.

The government's vision is to position UMANG as a single interface for citizens to interact with the government, be it services, beneficiary schemes, documents, information, engagement/participation in governance, and much more.

UMANG currently hosts thousands of services across sectors such as health, education, finance, utilities, social welfare, and employment, and serves millions of registered users nationwide. The platform is mission-critical and requires continuous technical support, enhancement, security monitoring, and onboarding of new services.

1. Job Title / Designation: Android Developer

No. of Vacancies: 2

Location: New Delhi

Qualification: B.E/B. Tech./ MCA

Job Category: Contract Basis

Job Description

- Design, develop, and maintain Android applications using **Java and Kotlin**.
- Write clean, scalable, and maintainable code following Android best practices and coding standards.
- Implement modern Android architectures such as **MVVM and MVI**.
- Integrate and consume **RESTful APIs** using **Retrofit, OkHttp, and RxJava**.
- Work with local databases such as **SQLite, Room, and Realm** for efficient data storage.
- Integrate third-party libraries and Google services including **Firebase, Crashlytics and Analytics**.
- Develop reusable components and **Android SDKs / libraries** when required.
- Write and maintain **unit tests, instrumentation tests, and integration tests**.
- Manage app build, release, and deployment processes including **Google Play Store publishing**.
- Identify, troubleshoot, and fix bugs to ensure application stability and performance.
- Follow **Agile methodologies** such as **Scrum and Kanban** during development cycles

Experience Criteria

- 1–4 years and above of professional experience in Android application development.
- Strong knowledge of Core Java and Kotlin (Core & Advanced).
- Experience working with Android OS on Windows and Ubuntu environments.
- Hands-on experience with Android SDK and application lifecycle management.
- Proficiency in Android libraries such as Glide, Dagger, Hilt, Retrofit, OkHttp, and RxJava.
- Good understanding of REST APIs, JSON, and XML.
- Experience with databases: SQL, SQLite, Room, and Realm.
- Familiarity with GitLab and CI/CD pipelines.
- Knowledge of testing frameworks for Unit, Instrumentation, and Integration testing.
- Understanding of Agile development practices (Scrum, Kanban).
- Strong problem-solving, debugging, and analytical skills.

Desirable Certifications & Experience

- Experience in library/SDK creation for Android projects.
- Prior experience handling Google Play Store app submissions and updates.
- Exposure to performance optimization and security best practices.

2. Job Title / Designation: Developer/Sr. Developer (Full Stack)

No. of Vacancies: 1

Location: New Delhi

Qualification: B.E/B. Tech./ MCA

Job Category: Contract Basis

Job Description

- Design, build, deploy and maintain advanced applications and APIs (scalable web services) - REST, SOAP, using Java, Hibernate, Spring and Spring Boot etc.
- Collaborate with cross-functional teams to define, design, and ship new features.
- Review and analyze business requirements and provide technical feasibility and estimates
- Developing frontend website architecture.
- Designing user interactions on web pages.
- Proficiency with fundamental front-end languages such as HTML, CSS, and JavaScript.
- Familiarity with JavaScript frameworks such as Angular JS, React js
- Work with outside data sources and APIs integration.
- Work on bug-fixing and improving application performance.
- Continuously discover, evaluate, and implement new technologies to maximise development efficiency.
- Work with Postgres and Cassandra as a backend database (other DBs may be added on to the stack)
- Work with caching database components as Redis
- Work with Jenkins and CI tools to automate dev, build, deployment and testing
- Writing JUnit/integration test cases to validate the code quality and code coverage
- Work independently and within a team, without too much supervision and help from seniors and tech lead.
- Must have the understanding of messaging queue- Kafka, Rabbit MQ
- Must have the understanding of web server – Tomcat, AWS containerization
- Good to have the knowledge of AWS components, cloud front, API Gateway, Athena, ECS, etc.

Experience Criteria

- 2+ years of proven software development experience in IT
- Proficient and should have hands-on experience in Java, Spring and Spring Boot.
- Hands-on experience of working on Angular/React javascript frameworks
- Must have working knowledge of backend architectures, trends, and emerging technologies.
- Knowledge of modern authorization mechanisms, such as JSON Web Token and OAuth2
- Experience working in an Agile development environment using methodologies like Scrum and tools like JIRA, Confluence
- Proficient understanding of code versioning tools - Git

Desirable Certifications & Experience

- Experience of working for a government set up/ project is desirable
- Professional certifications would be a plus

3. Job Title / Designation: QA/Tester

No. of Vacancies: 1

Location: New Delhi

Qualification: B.E/B. Tech./ MCA

Job Category: Contract Basis

Job Description

- Write clear and comprehensive test plans
- Design automated test scripts that are reusable
- Maintain documentation related to test cases per feature
- Should be able to understand the requirement and design test procedures and test cases for automated software testing
- Analyzing users stories and/use cases/requirements for validity and feasibility
- Derive /write test cases, use cases from scenarios for the new feature additions in the product.
- Anticipate/Identify and collect test data related to test cases if needed.
- Execute all the test cases and report defects, define severity and priority for each defect
- Investigate product quality to make improvements to achieve better customer satisfaction.
- Effective coordination with cross-functional teams.
- Verify the fixed defects and track them to closure
- Execute all levels of testing (System, Integration, and Regression)
- Work independently and within a team, without too much supervision and help from seniors and QA lead

Experience Criteria

- 5+ years of proven software development and testing experience in IT
- 3+ years of experience in mobile and web app functional testing
- Hands-on experience with functional testing
- Experience in REST APIs testing.
- Experience with automated testing using Selenium or any other tool is a plus
- Proficient understanding of software QA methodologies
- Experience working in an Agile development environment using methodologies like Scrum and tools like JIRA, Confluence
- Proficient understanding of code versioning tools - Git
- Basic knowledge of database Testing

Desirable Certifications &Experience

- Experience of working for a government set up/ project is desirable
- Professional certifications would be a plus

4. **Job Title / Designation:** Web Developer

No. of Vacancies: 1

Location: New Delhi

Qualification: B.E/B. Tech./ MCA

Job Category: Contract Basis

Job Description

- Design, develop, test, and maintain **Angular-based web applications**
- Build **reusable, modular, and scalable UI components**
- Translate UI/UX designs and wireframes into high-quality code
- Optimize applications for maximum performance and responsiveness
- Integrate front-end applications with **RESTful APIs**
- Collaborate with backend developers, designers, and product managers
- Write clean, maintainable, and well-documented code
- Perform code reviews and mentor junior developers
- Identify and fix performance bottlenecks and bugs
- Stay updated with the latest Angular and front-end trends

Experience Criteria

- 5+ years of experience in front-end development
- Strong hands-on experience with Angular (v8+ preferred)
- Proficient in TypeScript, JavaScript (ES6+), HTML5, and CSS3
- Experience with RxJS (or other state management libraries)
- Solid understanding of component lifecycle, directives, services, and modules
- Experience integrating RESTful APIs
- Familiarity with responsive design and cross-browser compatibility
- Experience with Git and version control workflows
- Understanding of Agile/Scrum development methodologies

Desirable Certifications & Experience

- Experience with Angular Material / Bootstrap
- Knowledge of unit testing frameworks (Jasmine, Karma)
- Experience with micro-frontend architecture
- Knowledge of web performance and security best practices

General Conditions applicable to all applicants covered under this advertisement

1. Those candidates, who are already in regular or contractual employment under Central / State Government, Public Sector Undertakings or Autonomous Bodies, are expected to apply through proper channel or attach a 'No Objection Certificate' from the employer concerned with the application OR produce No Objection Certificate at the time of interview.
2. NeGD reserves the right to fill all or some or none of the positions advertised without assigning any reason as it deems fit.
3. The positions are purely temporary in nature for the project of NeGD/DIC and the appointees shall not derive any right or claim for permanent appointment at NeGD/DIC or on any vacancies existing or that shall be advertised for recruitment by NeGD in future.
4. NeGD reserves the right to terminate the appointments of all positions with a notice of one month or without any notice by paying one month's salary in lieu of the notice period.
5. The designation of the selected candidates shall be mapped as per the existing designation policy of NeGD.
6. In case of a query, the following officer may be contacted:
